June 28, 2018

To: NEKWMD

This letter is to inform you that your charge for tire recycling services will increase as follows effective August 01, 2018.

Existing Price: \$120/ton

New Price: \$130/ton

Decreasing demand and sales price of Tire Derived Fuel (TDF) have made a price increase necessary. We value you as a customer and will continue to provide exceptional tire collection service at a fair and competitive price. Please contact me with any questions or comments.

Sincerely,

Frank Schofield

President

B.D.S. WASTE DISPOSAL, INC.
