

Proposed Work Schedule, Week of 11/19/18
Cabot-Danville US 2 Reconstruction
[Cabot-Danville FEGC F 028-3(36) C/2]

Project Location: The 1.4 mile project extends along US 2 from Last Road to Danville Hill Road in Cabot. This is a multi-year project with most of the work occurring in 2017/2018. Completion is scheduled for 2019.

THANKSGIVING HOLIDAY: Crews will be off of the road by noon on Wednesday in observance of the Thanksgiving holiday. Work will resume on Monday, 11/26 at 7:00 AM.

Miscellaneous clean-up, ditch work, topsoiling and seeding will continue project-wide.

Crews will begin to remove the extra width from the westbound lane and side slope. After this has been completed, permanent guardrail will be installed in this location.

The schedule for paving operations has yet to be determined. Paving operations are weather dependent and the schedule may vary due to weather and/or surface conditions.

TRAVEL ALERT: A speed reduction zone of 40 mph is in place for this project. There are increased fines for speed violations within the construction zone.

TRAFFIC INFORMATION: Construction vehicles will be entering and exiting the work zone throughout construction hours, and as a result, alternating one-way traffic patterns with flaggers will be in place. Delays can be expected.

Please focus on safety when driving through the construction work zone and remember, it is against the law to use a hand held cell phone while driving in Vermont.
