RE: WW-7-5289, Remove an existing 4 bedroom seasonal cabin constructed in 1914 and abandon an existing in-ground wastewater disposal system and surface water supply. The building will be reconstructed with a 2 bedroom house, a drilled bedrock well and an advanced treatment wastewater system with a modified mound disposal system., 122 Edgewood Ave, Danville, Vermont

Dear Applicant:

We received your complete application for the above referenced project on 04-27-2020. It was assigned to Richard Wilson, for a technical review. The following is a copy of the transaction record for this project.

<i>Date</i>	<i>Type</i>	<i>Code</i>	<i>Amount</i>	<i>Check#</i>	<i>Balance</i>
04-27-2020	FEE	ROI	306.25		\$-306.25
04-27-2020	RECVD		306.25	TransactionID:41967761211	\$0.00

Under the performance standards for this program, we have a maximum of 30 days of “in-house” time to review your application. Please note, in-house performance standards do not include the days between our request for additional information and our receipt date of that information.

If you have any questions about the review process, or if you have not received a decision on your application within the in-house days, please contact this office.

We forwarded the information contained in your application to the Permit Specialist for this region to determine if a Project Review Sheet is required for this project. A Project Review Sheet describes your project and indicates permits or approvals that may be required by other State Agencies or Departments. Depending upon the decision by the Permit Specialist, a Project Review Sheet may be sent to you. Additionally, please contact your local officials regarding any necessary town or city permits needed for your project.
