

Hi, my name is Craig Morris, I am running for one of the 1-year seats on the Danville Selectboard for the year 2021. This would be my first year serving the community, as an active member on the selectboard. I regularly attend the monthly selectboard meetings to gain information and insight into our town's budget and processes.

I have lived in Danville for much of my life, moving here in my elementary years of schooling. After living many years "off the grid" on Calkins Camp road, my wife, Danielle and I moved into the village in July 2017. I currently work as a truck driver, along with running my small business, Chasebrook Farm BBQ and Catering. I have experience working on road crews and for road construction companies in the greater northeast kingdom, which brings a valuable point of view.

What I would like to bring to the selectboard is more involvement and informing fellow community members about what is happening in our town. I look forward to the opportunity to serving my community.
